

## How to price your book

Any size of book can be printed but for simplicity of pricing we have constrained the prices to A5 and A4 books. Any book size between A4 and A5 should be priced as A4 and any book below A5 size should be priced as A5.

The books are perfect bound into a full colour cover. All costs, including delivery, are included in the following charts.

### Presentation of originals

Our prices are based on receipt of typeset text or disc. Regardless of the finished size of the book, it is more convenient to begin with an A4 document. Should the text require reduction this will be carried out at the print stage. It may be worth noting that a document set in 17-point text, if reduced from A4 to A5, becomes 12-point text.

The ideal format for documents is Acrobat .pdf. This format is hard to corrupt and will hold page content consistently.

Microsoft Word is acceptable but must be accompanied by a full proof print of the document and details of the version used.

Hard copy is fine but will lead to a slight reduction in quality as the document will need to be scanned. Again it is preferable for the document to be printed onto A4 sheets, single sided, leaving the reduction until the print stage.

### Cover design

All the prices are based on working from your own cover design artwork. If, however, you would like us to design your cover for you, we would be pleased to provide a written quotation.
